

Jewellery workshop

Jewellery! What a fascinating word! A word which never fails to attract! Creations which are a literal feast to the eyes! How do they happen?

Teachers of Tvsa had an opportunity to take their first basic steps into this intrinsic and interesting realm on 6th Aug 2011, when Mrs.Vimala Sriram from Coimbatore facilitated a workshop at TVSA.

The workshop gave a step by step insight into the various tools and materials required for making simple drop earrings, dangle earrings, stretch and clasp bracelets and bead necklaces.

Six types of pliers and flush cutters were the basic tools required, along with bead stringing wire, clasps, ear wires, headpins and stretch cord, unique coloured bead combiners helped each participant to play freely with her imagination and make excellent ensembles - a set consisting of a earring, matching bracelet & necklace. This workshop proved to be a real "Stress buster" to all the participants. Here are the creations for you to view!
